

MY favourite place

Dear grand children I hope you find the letter in the time capsule. One day when I was 8 there was a beautiful park called Piney Lakes it was so nice there. I went on an excursion with my class mates. My friend and I went on a night stalk tour. I saw animals including frogs, Bats, birds, bandicoots, turtles and spiders and they give you head lamps to see the animals at night time. You can go on a swing and go on a blue spider web and ride your bike around the park and take pictures of the place, the pictures look really good at night time because of the beautiful animals there. It is so amazing you will want to keep the animals. It takes so much courage to touch a snake, it is best not to go

near Piney Lakes. They can bite you and the bite is pretty painful. Did you know before Piney Lakes there was a farm and before that there were Aboriginal women only they came with their children they wore very few clothes and Jewellery. The clothes were to keep them looking nice. Maybe I can take you to Piney Lakes one day and you can see the same things and remember the time when I was little and enjoying my self. When you grow up I hope you save it and look after it. I hope you enjoy it like I did. Love Laura.
